SUMMARY

Data analyst with seven years of experience turning logistics and retail data into decisions. Builds forecasting models and self-serve dashboards used by more than 200 staff.

EXPERIENCE

Senior Data Analyst, Harbor & Finch Logistics

Portland, OR · Mar 2022 - Present

- Built a demand-forecasting pipeline in Python and dbt that cut stock-outs by 18%.
- Led the migration of 140 Tableau dashboards to a shared semantic layer.
- Mentored three junior analysts and ran the weekly metrics review.

Data Analyst, Lumen Retail Group

Seattle, WA · Jun 2018 - Feb 2022

- Designed and analysed more than 40 A/B tests on the checkout flow.
- Automated weekly sales reporting, saving six analyst-hours a week.

Analytics Intern, Cascade State University Library

Portland, OR · Summer 2017

- Cleaned and charted ten years of circulation data for the budget committee.
